solutions

For Transdermal Treatments

mesoskinline

MILANO ■ HAMBURG ■ COPENHAGEN *By Aleksandra Hjaersfeldt*

25 YEARS OF EXPERIENCE

MESOSKINLINE'S MESO-COCKTAILS ARE STERILE AND MANUFACTURED UNDER MOST MODERN FACILITIES. QUALIFIED PERSONAL, HIGH STANDARD LABORATORIES AND UP-TO-DATE KNOW HOW GUARANTEE THE HIGH QUALITY OF THE INGREDIENTS . THE MANUFACTURING FACILITIES ARE IN E.U.

Each mesococktail always contains: Impact ingredient - to obtain immediate result (and so satisfy patient's expectation)
Anti-oxydant ingredient - to balance free radicals' level (FRs increase after every dermathologic treatment).
Synergy - real and focused to prevent and cure the beauty flaw.

mesoskinline only manufactures sterile mesococktails, we don't believe in the single ingredient.

LIMITS:

Once you open it the first time, the product is exposed to external agents, it means that we have No more sterile product. Since it's exposed to light and heat, there's a HIGH risk to oxydate. It has to be combined to other ingredients in exact percentages, so HUGE waste of time. It has to be bought in big quantities, so GREAT waste of money.

LACK OF SYNERGY

A lot of Lab studies are made on ECCIPIENTS, infact, they contribute to the CHEMICAL BALANCE and CHEMICAL LINK of the INGREDIENTS. Without Eccipients or with an inadequate use of them, it will never be possible any synergy, and this means: low effectiveness of the treatment.

No waste of product - the product is in single use vials or ampoules.

STERILLITY GUARANTEED

No time waste - the product is ready to use! No Risk of Oxydize
High Concentration - to avoid body habit.

ISO9001

is basic quality assurance system in **mesoskinline**. This system covers all production steps including design and service process, also can provide good controlled productions for customers and patien-ts We develop our Range in a continuous dialogue with our customers.

ISO13485

quality standard is including ISO9001, traceability, cleanroom, facilities and sterilization for medical device. This standard has been adopted for the production line of mesoskinline.

93/42/EEC(MDD)

Medical devices directive is special guideline for each medical device to assure safety and comfort to the patients. This directive is adopted.

PROCEDURE FOR PRODUCTION

All raw materials are selected by us to meet the characters of medical devices. The production process is controlled according to ISO9001, ISO13485 quality systems. After production, all products are tested and inspected including packaging, sterilization etc.

Become a Distributor or Partner

mesoskinline is the innovator and knowledge leader in the non-invasive mesotherapy industry and offers high quality products.

mesoskinline

mesoskinline ApS

Juelsmindevej 57 - DK-7120 Vejle, Denmark

Email: sales@mesoskinline.com

Instruction to use

Mesoskinline's Range can be used the following treatments:

- Iontophoresis
- Phonophoresis
- Electroporation
- Meso-Cosmoceutical purposes,
- TDS (Transdermal Delivery System)

Mesoskinline cocktails does not contain ingredients from Bovine, Ovine, Caprine or any animal source. There is no risk of BSE contamination since all ingredients are synthetic or natural plant derived.

Hypodermic Needles

- Face, neck, hands and décolleté: 31G size of 4mm.
 - Body: 31G or 30G size of 6 or 13mm.
- It depends by the fat layer depth

Quantity on session

- Face: 2 - 3mL
- Face + neck: 4 - 5mL
- Face + neck + cleavage: 6 - 8mL
- Face + neck + cleavage + hands: 8 - 10mL
- Stretch Marks: 0.2 - 0.6mL e.a.
- Cellulite and Fat (Body): 5 - 15mL

It must be kept in mind that mesotherapy need minimum ten sessions:

- impact therapy, with weekly cadences for one month
- maintenance therapy, with fortnightly cadences for three months

FAQ: Help your patient to understand the treatment

When Will I see Results?

Results vary depending on your body type and the condition being treated. On average, patients notice visible improvement in two to three sessions. For certain conditions, patients see results after the first session.

Will the results last?

The results do last, especially when combined with exercise and proper nutrition. However, we cannot stop the natural aging that affects your appearance. For this reason, we recommend regular maintenance visits.

Are the treatments painful?

You may feel a slight pinching or burning sensation when the injections are administered. However, we can provide a topical anesthetic that makes treatment virtually painless.

Are there any side effects?

A common side effect of Mesotherapy is bruising, which generally resolves over one week. To speed up the healing process, we recommend that the homeopathic supplement arnica be taken either orally or applied topically on a daily basis. Patients may experience temporary soreness. This will subside within 24-48 hours.

Are there any Restrictions?

Restrictions vary, depending on the condition being treated. We must discuss these with each patient before treatments commence. In general, patients are advised not to wear makeup for at least 4 hours after facial treatments, not to take hot showers for at least 6 to 8 hours.

We recommend that patients eat a high-protein meal, and avoid caffeine or other stimulants before treatment.

Combination Treatment

During the protocols can be combined peeling, R.F., Cavitation, etc. NEVER IN THE SAME DAY!

TESTED PRODUCT FOR MESOTHERAPY
DERMATOLOGICALLY TESTED

Skin Repair Revolution!

Regeneration

- M.M.C induces the proliferation and reconstitutes the optimum functional capability of prematurely senescent fibroblasts.
- M.M.C facilitates the reconstruction of the cutaneous architecture through an active action on collagen fibres.

Skin repair effects of Mesotech mesolift cocktails

- **Vitamins** provide an anti-deficiency function
- **Amino acids** a better protein construction
- **Minerals** guarantee the ionic balance
- **Hyaluronic Acid** restore the physiologic level of hydration
- **Nucleic acids** stimulate synthesis
- **Retinoic Family** stimulate fibroblast functions in aged skin
- **Copper Peptid** increases biosynthesis of collagen and elastin
- **Reducing Agent Gluthation** super anti-oxidant created from liver
- **DMAE** collagen degeneration contrasting

Dimethylethanolamine (DMAE)

Molecular formula	C ₄ H ₁₁ NO
Molar mass	89.14 g/mol
Density	0.89 g/mL
Melting point	-70 °C
Boiling point	133–134 °C

Amino acids

- Glutamic acide
- Asparagine
- Glutamine
- Histidine
- Lysine
- Phenylalanine
- Taurine
- Tyrosine

Action on Fibroblasts

- Fibroblast Growth Factor – like activity
- Favors the correct assembly of the fibronectin extra cellular matrix.
- Cultured senescent fibroblasts acquiring an arrangement and morphology similar to those of young fibroblasts

Rejuvenating

Mesoskinline's lifting cocktails 's active ingredients causes Improvement in Skin Firmness and Elasticity.

Protection

All Mesoskinline's Antiageing cocktails potentates the protective mechanism of the skin.

- Reducing agent Gluthation : Super anti-oxidant created from liver
- Reinforced with antioxidant : Vit C, Vit E

rebuilding the skin

Item no.: MST9001

1 box = 20 ml (10 ampoules of 2.0 ml)

MESO FRESH VITAMIN⁺

revitalizing, moisturizing and refreshing the skin

STERILE COCKTAIL
Ready to use

Anti-ageing MESO FRESH VITAMIN⁺

MESO FRESH VITAMIN⁺ includes a balanced mixture of fundamental factors in blood that help recover the normal physiology of the skin.

Each mesococktail always contains:

- Impact ingredient - to obtain immediate result (and so satisfy patient's expectation)
- Anti-oxydant ingredient - to balance free radicals' level (FRs increase after every dermatologic treatment).
- Synergy - real and focused to prevent and cure the beauty flaw.

APPLICATION PROTOCOL

1. Apply Meso Pain Reduce on the area for 2-4 min. (topical plant-based anesthetic).
2. Prepare the MESO FRESH VITAMIN⁺-meso-cocktail.
3. Wipe the Meso Pain Reduce off the skin with Meso Pure Peel.
4. Perform the treatment with MESO FRESH VITAMIN⁺.
5. Apply Meso Anti-age Mask (calming, relieving, disinfecting, anti-aging and hydrating action).
6. Finish the treatment with Meso Lift and Protect Cream (anti-age and healing, anti-inflammatory, UV50).

INGREDIENTS:

Aqua, Sodium Gluconate, Hyaluronic Acid, Potassium Gluconate, Calcium gluconate, Magnesium Gluconate, Cystine, Glutamine, Ascorbic Acid, Aminobutyric Acid, Arginine, Alanine, Lysine, Valine, Histidine, Tyrosine, Tryptophan, Phenylalanine, Threonine, Leucine, Aspartic Acid, Thymidine, Cysteine, Deoxycytidine, Glycine, Serine, Oxodeoxy Guanosine, Glutathione, Disodium Uridine Phosphate, Pyridoxine, Proline, Tocopheryl Acetate, Asparagine, Riboflavin, Biotin, Thymidine Phosphate, Calcium, Pantothenate, Cyanocobalamin, Ornithine, Disodium Flavin Adenine Dinucleotide, Menadione, Folic Acid, Glutamic Acid, Niacinamide, Thiamine Hcl, Methylcytosine, Methionine, Retinyl Acetate, Hydroxyproline, Inositol, Taurine.

MAIN TREATMENT AREA

- Face
- Décolletée
- Neck

TREATMENT PROGRAM:

1. First month: once a week
2. Next 2 months: minimum once a month
3. Maintenance: once every 3-6 months

RESULTS

- Anti-ageing, all signs of ageing incl. pigment spots
- Refreshing dull skin (smoking, unhealthy life style or diet, after chemotherapy)
- Firms the skin on the neck, face and especially around lips and cheek area.
- Reduces the length and depth of wrinkles
- Increases the skin's elasticity and stimulates collagen production
- Compatible with botulinum toxin, fillers, threads.

ACTIVES: HA, Retinol, Complex B

DOSE: 4.0 ml

DILUTION: Proportion 1:1

MESO CHEEK LIFT⁺

activates cell reconstruction

Item no.: MST9002

1 box = 20 ml (10 ampoules of 2.0 ml)

MESO CHEEK LIFT⁺

power of DNA for rebuilding the skin

STERILE COCKTAIL
Ready to use

(DNA+Tocopherol) activates cell reconstruction

MESO CHEEK LIFT⁺

The power to reconstruct the connective tissue by stimulating the scarring processes. The strong action on E.C.M.

Lines caused by facial expressions are always visible. We use about 60 muscles while communicating both through speech and facial expressions. Frowning, lifting of eyebrows, laughing, pulling a face are some typical facial expressions that we use to communicate. As time passes and with frequent use of these facial movements, these wrinkles persist and become permanent deep wrinkles on the forehead, laughter lines and crow's feet. Besides botox injection there is a clear consumer need for effective, safe topical treatments.

APPLICATION PROTOCOL

1. Apply Meso Pain Reduce on the area for 2-4 min. (topical plant-based anesthetic).
2. Prepare the MESO CHEEK LIFT+-cocktail.
3. Wipe the Meso Pain Reduce off the skin with Meso Pure Peel.
4. Perform the treatment with MESO CHEEK LIFT+.
5. Apply Meso Anti-age Mask (calming, relieving, disinfecting, anti-aging and hydrating action).
6. Finish the treatment with Meso Lift and Protect Cream (anti-age and healing, anti-inflammatory, UV50).

MAIN TREATMENT AREA

- Face (malar zone as focus area)
- Décolletée
- Hands

TREATMENT PROGRAM:

1. First 2 months: once a week
2. Next 2 months: minimum once a month
3. Maintenance: once every 3-6 months

Age 30+: 4-5 treatments

Gge 40+: 6-8 treatments

RESULTS

- Anti-ageing and skin reconstructing
- Rebuilds skin tissue after acne, sunburn, solarium
- Firms the skin especially on the cheek area
- Reduces the length and depth of wrinkles
- Increases the skin's elasticity and stimulates collagen production
- Compatible with botulinum toxin, fillers, threads.

INGREDIENTS:

AQUA, SODIUM CHLORIDE, SODIUM DNA

ACTIVES: DNA, Vit. E

DOSE: 2-3.0 mL

DILUTION: Proportion 1:1

MESO EYE LIFT⁺

anti-flaccidity treatment

Item no.: MST9004

1 box = 10 x 2ml ampoules of Meso Eye Lift Base Solution
2 x 5 ml vials of Meso Eye Lift Activator

MESO EYE LIFT⁺

anti-flaccidity treatment

STERILE COCKTAIL
Ready to use

MESO EYELIFT⁺ the fast lifting effect!

MESO EYE LIFT⁺ is an effective meso-cocktail developed to prevent the skin's signs of ageing and to firm the skin.

MESO EYE LIFT has no side effects, and the treatment is compatible with other meso-cocktails and botulinum toxins. It is therefore both a gentle and effective agent for firmer and stronger skin.

MESO EYE LIFT⁺ is very effective for wounded skin, mature skin and impure skin. It is a unique skin care meso-cocktail, developed in Italy, using special technology and know how.

APPLICATION PROTOCOL

1. Apply Meso Pain Reduce on the area for 2-4 min. (topical plant-based anesthetic).
2. Prepare the MESO EYE LIFT⁺-cocktail.
3. Wipe the Meso Pain Reduce off the skin with Meso Pure Peel.
4. Perform the treatment with MESO EYE LIFT⁺.
5. Apply Meso Anti-age Mask (calming, relieving, disinfecting, anti-aging and hydrating action)
6. Finish the treatment with Meso Lift and Protect Cream (anti-age and healing, anti-inflammatory, UV50).

INGREDIENTS:

Basic Solution Ampoules: Aqua, Chloride Sodium, Coenzyme A, 1-2 Dithiolane-3-Pentanoic Acid, Cysteine, Ascorbic Acid, Thiamine Hcl, Riboflavin, Pyridoxine, Niacinamide, Citric Acid, Fumaric Acid, Ketoglutaric Acid, Malic Acid, Succinic Acid, Magnesium Phosphate, Sodium Oxalacetate, Sodium Pyruvate, Adenosine Triphosphate, Nicotinamide Adenine Dinucleotide, Barium Oxalsuccinate.

Activator Vials: Aqua, Hydrolyzed Elastin, Methylsilanol Mannuronate, Dimethylaminoethanol Bitartrate, Centella Asiatica Glycolic Extract, Mimosa Tenuiflora Extract, Disodium Edesate.

MAIN TREATMENT AREA

- Malar Zone
- Periorbital Zone
- Face and neck (especially for thin skin)

TREATMENT PROGRAM:

1. First 2 months: once a week
2. Next 2 months: minimum once a month
3. Maintenance: once every 6 months

- Age 30+: 4-6 treatments
- Age 40+: 6-8 treatments
- Age 50+: 8-10 treatments

RESULTS

- Anti-ageing and skin tightening
- Tones the muscle fibers and lifts the skin
- Firms the skin especially on the cheek and eye area
- Reduces the length and depth of mimic wrinkles
- Increases the skin's elasticity and stimulates collagen production

Compatible with botulinum toxin and fillers.

ACTIVES:

DMAE, Amino, Organic Silicon

DOSE:

3.0 mL

DILUTION:

2 ml B-Solution+1 ml Activator

MESO NECK AND DÉCOLLETÉE LIFT⁺

DMAE, elastin, organic silicium to restore the skin

Item no.: MST9003

1 box = 50 ml (10 ampoules of 5.0 ml)

MESO NECK AND DÉCOLLETÉE LIFT⁺

smoothing and extreme toning effect,
reducing the skin aging process

STERILE COCKTAIL
Ready to use

Firm the neck and chin with MESO NECK & DECOLLETE LIFT⁺

is an effective method to achieve firm, healthy skin. It is a non-greasy meso product for the neck area, which reduces wrinkles and, e.g. can be used to firm the skin on the neck area.

ACTIVE FACTORS

MESO NECK & DECOLLETE LIFT⁺ meso-cocktail contains the three most effective substances known that are needed for real results. MESO NECK & DECOLLETE LIFT⁺ is the first to combine all three, resulting in the most advanced skin care wrinkle meso treatment reducer on the market today. DMAE+Elastin+Methylsilanol Mannuronate .

The treatment is completely harmless and without side effects, and therefore is an excellent alternative to other treatments such as Botox.

APPLICATION PROTOCOL

1. Apply Meso Pain Reduce on the area for 2-4 min. (topical plant-based anesthetic).
2. Prepare the MESO NECK AND DÉCOLLETÉE LIFT + meso-cocktail.
3. Wipe the Meso Pain Reduce off the skin with Meso Pure Peel.
4. Perform the treatment with MESO NECK AND DÉCOLLETÉE LIFT⁺.
5. Finish the treatment with Meso Lift and Protect Cream.

MAIN TREATMENT AREA

- Face
- Body
- Décolletée
- Neck

TREATMENT PROGRAM:

1. First 2 months: once a week
2. Next 2 months: once a month
3. Maintenance: once every 6 months

RESULTS

- Anti-ageing, early signs of ageing, Liposculpture
- Firms the skin on the neck and décolleté
- Reduces the length and depth of wrinkles
- Prevents and reduces wrinkles or stretch marks
- Increases the skin's elasticity and stimulates collagen production

INGREDIENTS:

Aqua, Hydrolyzed Elastin, Methylsilanol Mennuronate, Dimethylaminoethanol Bitartrate, Centella Asiatica Glycolic Extract, Mimosa Tenuiflora Extract, Disodium Edetate.

ACTIVES:

Elastin, DMAE, Organic Silicon, collagen

DOSE: 2-3.0 mL

DILUTION: Proportion 1:1

MESO HAIR LOSS CONTROL

eight actions to reidentify

MESO HAIR LOSS CONTROL⁺

safe, strong, and effective formula against hair loss
for all ages and hair types

Item no.: MST9006

1 box = 50 ml (10 ampoules of 5.0 ml)

STERILE COCKTAIL
Ready to use

MESO HAIR LOSS CONTROL⁺ agent against hair loss

The product contains the exact composition of vitamins, amino acids and minerals needed to optimum benefits from the body's metabolism. It is a balanced combination of highly effective and innovative components able to act against all factors promoting hair loss, and effective and innovative components in high concentrations.

MESO HAIR LOSS CONTROL⁺ helps to increase blood flow and therefore to irrigate and oxygenate the scalp.

Acts on the hair life cycle at different levels:

- Prevents hair loss
- Normalizes hair grease secretion
- Stimulates hair growth
- Protects hair structure & integrity

MESO HAIR LOSS CONTROL⁺ ensures permanent bioavailability and thus optimises the production of keratin proteins. The treatment ensures the exact composition of amino acids needed for healthy hair, and is an essential component of anti-hair loss agents.

APPLICATION PROTOCOL

1. Wipe the area with Meso Pure Peel (hydrates, cleanses, promotes new cell reproduction).
2. Perform the hair loss treatment with MESO HAIR LOSS CONTROL⁺ meso-cocktail.
3. Massage the scalp after the treatment to stimulate better blood circulation.

MAIN TREATMENT AREA

- Scalp
- Eyebrows
- Beard

TREATMENT PROGRAM:

1. First 2 months: once a week/10 days
2. Next 2-3 months: minimum once a month
3. Maintenance: once every 2-3 months

RESULTS

- stimulates hair growth regardless the sex or age
- protects hair structure in periods of medication or stress
- makes it possible to get longer and thicker hair
- postpones genetic hairloss
- revives the dormant hair follicles after pregnancy, stress, lack of sleep, scalp infections.

INGREDIENTS: AQUA, PEG-35 HYDROGENATED CASTOR OIL, SERENAO SERRULATE FRUIT EXTRACT, PROPYLENE GLYCOL, TAURINE, ZINC GLUCONATE, METHIONINE, THIAMINE HL, PYRUDOXINE HCL, PANTHENOL, BIOTIN, SODIUM REBOFLAVIN PHOSPHATE

ACTIVES:

Saw Palmetto, Centella, Biotin, Panthenol, Cystein, Taurin

DOSE: 5.0 mL

DILUTION: Proportion 1:1

MESO STRETCH MARK REMOVER⁺

stimulates wound healing and tissue regeneration

Item no.: MST9005

1 box = 50 ml (10 ampoules of 5.0 ml)

MESO STRETCH MARK REMOVER⁺

amazing tissue regeneration of scars, stretch marks, deep wrinkles and any wounds

STERILE COCKTAIL
Ready to use

Remove stretch marks with MESO STRETCH MARK REMOVER⁺

Regenerates the skin and removes stretch marks (both white and red).

Both men and women can experience stretch marks on different parts of their body. Stretch marks occur when the skin is stretched or contracted too quickly, such as during pregnancy, weight increase, weight loss or muscle building.

Overloading the skin damages the subdermal collagen, as does damage and dehydration of the elastin fiber matrix. This can leave visible marks or scars that we know as stretch marks. A treatment with MESO STRETCH MARK REMOVER⁺ can prevent and remove stretch marks.

MESO STRETCH MARK REMOVER⁺ contains active ingredients that, according to clinical studies, can prevent and remove stretch marks by increasing the collagen and elastin formation, firm the collagen matrix and hydrate certain areas of the skin. Hydrolyzed collagen, HCP, is collagen that has been enzymatically or chemically processed to make it more easily absorbed by the body. Hydrolyzed collagen consists of water-soluble peptides which are rich sources of the amino acids glycine, L-proline and L-hydroxyproline.

APPLICATION PROTOCOL

1. Apply Meso Pain Reduce on the area for 2-4 min. (topical plant-based anesthetic).
2. Prepare the MESO STRETCH MARK REMOVER+meso-cocktail.
3. Wipe the Meso Pain Reduce off the skin with Meso Pure Peel.
4. Perform the treatment with MESO STRETCH MARK REMOVER⁺.
5. Finish the treatment with Meso Lift and Protect Cream (anti-age and healing, anti-inflammatory, UV50)

MAIN TREATMENT AREA

- Stretch marks
- Scars
- Deep wrinkles

TREATMENT PROGRAM:

1. First 2 months: once a week/10 days
2. Next 2-3 months: minimum once a month

RESULTS

- reduction of dyschromy and width of the stretch mark
- collagenase activity on denatured collagen
- peptide activity on increase of biosynthesis of collagen and elastin
- provides a structural support network of fibronectin

INGREDIENTS:

Aqua destil, Aqua marina Isotonica, Sodium Chondroitin Sulfate, hydrolyzed Collagen, Sodium Mannuronate methylsilanol, Glucosamine Sulfate, Sodium Metabisulfite

ACTIVES:

Collagen, Marine Plasma, Silicium

DOSE:

0.3 - 0.5mL for each stretch mark

DILUTION:

Proportion 1:1

MESO FACE RESHAPE⁺

the ultimate meso-cocktail to sculpt face

Item no.: MST9007

1 box = 20 x 2ml ampoules of Meso Face Reshape Base Solution
2 x 5 ml vials of Meso Face Reshape Activator

MESO FACE RESHAPE⁺

the ultimate and effective mesococktail to sculpt face, drainage and fat reduction action

STERILE COCKTAIL
Ready to use

MESO FACE RESHAPE⁺

Is a sterile biological solution based on 4 active steps:

1. Water Retention
2. Restore Microcirculation
3. Lipolysis
4. Restore tone and elasticity

Meso Face Reshape is a concentrated lipolytic anti-age meso-cocktail specially designed for the face, neck and upper arms area.

The active formula of this meso-cocktail is designed for surgery-free reduction of the face adiposity and small fat deposits on neck and arms area. Facial adiposity is getting more visible with the ageing process and is not only genetic but is also caused by multiple factors in the human's body and lifestyle.

These factors include:

- The activity of human's endocrine system
- Enzymatic and psychosomatic processes in the skin
- Dietetic, mechanical and vascular factors depending on individual life style and everyday activity.

APPLICATION PROTOCOL

1. Apply Meso Pain Reduce on the area for 2-4 min.
2. Mix 2 x 2ml ampoules with 1 ml activator.
3. Wipe the Meso Pain Reduce off the skin with Meso Pure Peel.
4. Perform the reshape treatment with a ready mesococktail – use any preferable technique (non-invasive, invasive etc.).
5. Apply Meso Anti-age Mask.
6. Finish the treatment with Meso Lift and Protect Cream.

INGREDIENTS:

BASIC SOLUTION AMPOULES: AQUA, SODIUM CHLORIDE, FUMARIA OFFICINALIS EXTRACT, AESCULUS, HIPPOCASTANUM EXTRACT, SEPIA EXTRACT, NICOTIANA TABACUM EXTRACT, JUGLANS REGIA LEAF EXTRACT, HIERACIUM PILOSELLA EXTRACT, HAMAMELIS VIRGINIANA EXTRACT, PROPYLENE GLYCOL, ALCOHOL.

ACTIVATOR VIALS: AQUA, SODIUM BENZOATE, CAFFEINE, CARNITINE, TAURINE, METHYLSILANOL MANNURONATE, MANNITOL, ALCOHOL, TROXERUTIN, HAMAMELIS VIRGINIANA EXTRACT, CYNARA SCOLYMUS EXTRACT, COUMARIN

MAIN TREATMENT AREA

- Lower face
- Body
- Eye area
- Neck

TREATMENT PROGRAM:

1. First 4-12 weeks: once a week
 2. Next 6 months: once a month
 3. Maintenance: once every 3-6 months
- Eye area: 3-4 treatments
 - Face and neck area: 6-8 treatments
 - Upper arms: 8-12 treatments

RESULTS

- Brighter and healthier skin color (detoxifying action)
- Re-firming and re-modelling the face contour (draining action)
- Defines a jawline (lipolytic action)
- Reduces eyebags and double chin up to 80% (lipolytic action)
- Improves microcirculation and reduces signs of tiredness already after 1 session (lipolytic and draining action)

ACTIVES:

Base Solution - Hippocastanum, Fumaria, Nicotin
Activator - Hamamelis, caffein, l-carnitin

DOSE:

2.5 - 5.0ml

DILUTION:

1m Activator : 4mL Base Solution

MESO BODY RESHAPE⁺

strong lipolysis

MESO BODY RESHAPE⁺

drainage and fat burning action,
perfectly designed for the body

Item no.: MST9008

1 box = 50 ml (10 ampoules of 5.0 ml)

MESO BODY RESHAPE⁺

The perfect solution for the body lipolytic mesotherapy treatments. This combination of active ingredients helps to achieve the most rapid effect on Fat Loss and Cellulite Removal on the treated areas.

MESO BODY RESHAPE has lipolytic and draining action specially designed for the body fat. The body fat is different from face fat and certain areas hold fat better and store it even while person is on diet. Typically, fat on abdomen and hips has the most stable fat depots filled with diet resistant fat. The face loses fat as it ages while the body stores it. That is why there is a reasonable difference in face and body lipolytic treatments. The depth of treatment, the meso-cocktails' composition, the frequency and the healing are different. That is why it is utterly important for the therapist to use the lipolytic meso-cocktails correctly and follow the instructions.

APPLICATION PROTOCOL

1. Apply Meso Pain Reduce on the area for 2-4 min.
2. Prepare the meso-cocktail (0.5 ml in 4x4 cm area).
3. Wipe the Meso Pain Reduce off the skin with Meso Pure Peel.
4. Perform the reshape treatment with a ready meso-cocktail (not less than 6-13 mm in depth).

MAIN TREATMENT AREA

- Hips
- Body
- Legs
- Abdomen

TREATMENT PROGRAM:

1. First 4 months: twice a month
2. Next 2 months: once a month
3. Maintenance: once every 6 months

RESULTS

- improvement of the skin tones
- moisturizing and strengthening the protective properties of the epidermis
- detoxifying action through draining of the lymph and water
- improvement of microcirculation & fat reduction through lipolysis

INGREDIENTS:

AQUA / WATER, SODIUM EOXYCHOLATE, PHOSPHATIDYLCHOLINE, BENZYL ALCOHOL, SODIUM CHLORIDE, SODIUM HYDROXIDE

ACTIVES:

PPC 250 mg, Sodium deoxycholate 2.5% + L- carnitine 20%.

DOSE:

10 ml (0.5 ml in 4x4 cm area)

DILUTION:

Proportion 1:1

MESO PEEL

Perfection in skin rejuvenation - against signs of skin damage

Explanation for the ingredients used in MESO PEEL Acne and MESO PEEL Melanin

PYRUVIC ACID 20% | Function: Active ingredient

Note: contain melanin as an active ingredient in MESO PEEL Acne and MESO PEEL.

20% of pyruvic acid is very effective in reducing melasma and skin discoloration after inflammation. It plays an important role in the depigmentation and is active against keratinocytes.

It also has antibacterial, anti-inflammatory and sebum-regulating properties. Pyruvic acid is an effective chelating copper compound that strengthens the tyrosinase enzymes and has a depigmenting effect.

SALICYLIC ACID (20%) | Function: Active ingredient

Note: contained as an active ingredient in MESO PEEL Acne.

Salicylic acid is a slightly hydrophilic acid that has sebum-regulating properties.

It also has anti-inflammatory, antimicrobial, astringent and anti-skin ageing properties.

Resorcinol is a phenolic derivative with keratolytic and regenerative properties, it combats skin discoloration and has a brightening effect. Resorcinol is used in acne and skin treatment to remove hard, scaly or rough skin. It has keratoplastic, antiseptic and slightly caustic properties.

Resorcinol works by breaking down rough, scaly or hardened skin. Resorcinol also disinfects the skin to fight against infections.

RESORCINOL 10% | Function: Active ingredient

Note: contained as an active ingredient in MESO PEEL Melanin

PHYTIC ACID 6%

Phytic acid is a powerful chelating compound with copper that stimulates tyrosinase enzymes and has a depigmenting effect.

ingredients (Meso Peel Melanin)

MESO PEEL ACNE⁺ perfection in skin rejuvenation (pH 1.8)

Benefits of the treatment:

- reduces melasma and skin discoloration after inflammation
- inhibits keratinocytes
- antibacterial, anti-inflammatory and sebum-regulating properties
- reduces hard, scaly or rough skin
- disinfects the skin to fight against infections

MESO PEEL MELANIN⁺ (pH1.8) against signs of skin damage due to light and skin discoloration

Benefits of the treatment:

- reduces melasma and skin discoloration after inflammation
- inhibits keratinocytes
- antibacterial, anti-inflammatory and sebum-regulating properties
- fights skin discoloration
- has a brightening effect

1 Box Meso Peel Kit:

- 1 x 10 ml MESO PEEL Protector
- 1 x 50 ml MESO PEEL Acne or Melanin (pH 1.8)
- 1 x 25 ml MESO PEEL Stop (pH 8.6)
- For 25-30 treatments

MESO PURE PEEL

different actions in one treatment

MESO PURE PEEL

MESO PURE PEEL is the unique peel available in disposable dispensers of 3 ml sachets with natural ingredients that reduce peeling side effects.

MESO PURE PEEL is an excellent product for natural and effective peeling. Perfect for a deep corneolysis cleanse before any treatment.

MESO PURE PEEL is a concentrate of five vegetal extracts:

- blueberries
- sugar cane
- sugar maple
- orange
- lemon

MESO PURE PEEL Five treatments in one:

- Keratolytic
- Collagen synthesis
- Elastin synthesis
- Moisturising
- Smoothing

No redness or discomfort.

MESO PURE PEEL meets the standards for organics and organic cosmetics according to ECOCERT (www.ecocert.com). Alpha hydroxy acids have been shown to promote smoother and younger skin by increasing cell renewal.

Actives:

Lactic Acid 28-32 % – highly moisturising, Glycolic Acid 12-17 % – effective keratolytic effect, Citric Acid 2-6 % – stimulates collagen synthesis, Malic Acid 1 % max. increases skin's elasticity, Tartaric Acid 1 % max. enhances skin's firmness.

MESO PURE PEEL (pH 34.3) different actions in one treatment

Main treatment areas

- Face. Must be added before every other dermatological treatment: photo therapy, laser needling, RF and other cosmetic methods
- Body

This treatment benefits

- Cleanse with a powerful corneolysis effect
- Promotes cell renewal. Maximum efficacy with minimum irritation, promotes skin glowing
- Anti-ageing
- Deep corneolysis
- Makes skin receptive to active ingredients

TREATMENT / TIP

- Rub evenly in circular motion on the treatment area until absorbed. Do not rinse for the next 8-12 hours.
- Can be used as a course of treatment for 14 days before bedtime, under night cream
- Can be used before a holiday in the sun to prepare the skin for even melanin production

INGREDIENTS

AQUA, DISODIUM COCOAMPHODIACETATE, GLYCERIN, PEG-40 HYDROGENATED CASTOR OIL, PROPYLENE GLYCOL, LACTIC ACID, POLYSORBATE 20, PHENOXYETHANOL, SODIUM CHLORIDE, PARFUM, BISABOLOL, ETHYLHEXYLGLYCERIN, VACCINIUM MYRTILLUS LEAF EXTRACT, SOLANUM LYCOPERSICUM FRUIT EXTRACT, CITRUS GRANDIS FRUIT EXTRACT, CITRIC ACID, DISODIUM EDTA, CITRUS LIMON PEEL EXTRACT, MALIC ACID, CAMEL, SODIUM HYDROXIDE

MESO ANTI-AGE MASK

professional Patch Hydrogel face mask

MESO ANTI-AGE MASK

mesoskinline's MESO ANTI-AGEING MASK comprises two layers: The first layer is made of a thick cellulose, while the second is a hydrogel.

Both have an effective osmotic process that enables a high transfer efficiency of active ingredients (pharmaceutical quality) in the hydrogel film.

To create the ideal conditions for stimulating the osmotic process, the skin needs a precise compression through a thick connection, which must be both flexible and elastic to snugly fit the shape of the area that is being treated (for this reason tnt is not the best material for stimulating the osmotic process).

This is the biggest difference between professional masks and homecare masks.

The mask increases the skin's regeneration capacity due to the high percentage of hyaluronic acid, which has an instant softening effect.

Active ingredients

Acetyl Hexapeptide-8 Argireline®, HA 25 %, Resveratrol, Hexyl cinnamal, Aqua (Water), Algin, Polyvinyl Alcohol, Cellulose Gum, Propylene Glycol, Sodium Hyaluronate, Retinyl Palmitate, Perfume, Phenoxyethanol, Methylparaben, Ethylparaben, Propylparaben, Butylphenyl Methylpropional, Alpha-Methyl ionone, Benzyl salicylate, Coumarin, Eugenol, Geraniol.

The MESO ANTI-AGE MASK contains an innovative formula of natural ingredients. The main ingredients are: Acetyl Hexapeptid-8 Argireline®, HA 25 %, Retinol and Resveratrol.

The MESO ANTI-AGEING MASK reduces the depth of facial wrinkles caused by muscle contraction during different facial expressions, especially around the eyes, mouth and brow.

It detoxes the skin and has excellent antioxidant properties (vitamins A, C and E). Due to the high percentage of hyaluronic acid, the physiological hydrolipid level is reconstructed from first application.

MESO ANTI-AGE MASK

professional patch hydrogel
face mask

Main treatment areas

- Face
- Neck

This treatment benefits

- Anti-ageing
- Post mesotherapy
- Post laser treatment
- Post peeling
- Firming effect
- Reduces wrinkles around the eyes, mouth and brow
- Moisturising
- Firmness
- Skin Radiance

TREATMENT

- Place the mask on the face and neck after treatments, for up to 40 minutes.

INGREDIENTS

AQUA, ALGIN, POLYVINYL ALCOHOL, DISODIUM PHOSPHATE, CELLULOSE GUM, SODIUM PHOSPHATE, ACETYL HEXAPEPTIDE-8, CAPRYLYL GLYCOL, SODIUM HYALURONATE, RETINYL PALMITATE, HELIANTHUS ANNUUS SEED OIL, TOCOPHEROL, PARFUM, ETHYLHEXYLGLYCERIN, PHENOXYETHANOL, CITRIC ACID, SODIUM SILICATE, BENZYL SALICYLATE, COUMARIN, HYDROXYCITRONELLAL

MESO LIFT AND PROTECT

very high sun protection with anti-age effect

Day cream with incredibly high sun protection and anti-age effect

The tolerance and efficiency of MESO LIFT AND PROTECT has been tested under dermatological conditions.

MESO LIFT AND PROTECT is a multifunctional product. As well as being an effective sun protection against UVB and UVA rays, the formula is also enriched with valuable active ingredients that guarantee:

- Protection against UV rays
- Moisturising
- Soothing
- ALOE VERA

The famous Aloe Vera or *Aloe barbadensis* is scientifically tested on all types of burns, whether from radiation, thermic burns or the sun. It has also proven to have a preventative effect when applied before, during and after skin damage.

Many of the benefits of AV come from the polysaccharides found in the gel from the leaves. But several other natural chemical substances in Aloe Vera extract are associated with beneficial health-promoting effects: Amino acids, anthraquinones, enzymes, organic and inorganic substances, fats, carbohydrates, lignin, salicylic acid, saponins, sterols and vitamins (B1, B2, B6, C, B-carotene, choline, folic acid and B-tocopherol).

HA low molecular weight (5-10 kDa)

Hyaluronic acid and the more general mucopolysaccharides are among the primary components of connective tissue structures. Hyaluronic acid's incredibly low molecular weight (5-10 kDa) in MESO LIFT AND PROTECT improves intracutaneous penetration and forms a new raw material for the formation of a medium molecular weight of hyaluronic acid.

This form of hyaluronic acid is especially suitable for retaining water both in the connective tissue and in the deeper layer of the skin (and is therefore responsible for profound hydration). In the upper layers of the skin, the transepidermal water loss (TEWL) is reduced.

COLLOIDAL OATMEAL

Colloidal oatmeal has been used for thousands of years to treat skin ailments. Colloidal oatmeal is popular for its moisturising, cleansing, antioxidant and anti-inflammatory properties, thanks to its chemical heterogeneity.

It has been proven that oatmeal extract inhibits activity of the nuclear factor Kappa B (NF-kappa B) in keratinocytes and the release of pro-inflammatory histamine of cytokines.

It also produces arachidonic acid, the cytosolic phospholipase A2 and tumor necrosis factor alpha (TNF-alpha). Colloidal oatmeal has proven to be a safe and effective ingredient in various products for personal care. It contains a number of active ingredients, including polysaccharides, proteins, lipids, saponins, enzymes, flavonoids, vitamins and avenanthramides (polyphenols).

A total of 47 people took part in the study of the clinical efficacy of a body cream that contained oatmeal. This study showed that the skin's moisture was at all times significantly higher, even two weeks after stopping use of the cream, compared to the baseline.

The surface area with dead epithelial cells and the epithelial scaling index on the lower arm were significantly reduced at all times during the study, compared to the baseline.

Actives

PF 50+, Syn®-ake, Hyaluronic acid, Oat, Aloe.

Ingredients

Aqua, Decyl Oleate, Octocrylene, Butyl Methoxyd i benzoylmethane, Ethylhexyl Salicylate, Vp/Eicosene Copolymer, Phenylbenzimidazole Sulfonic Acid, Glycerin, Homosalate, Cetareth-25, Ceteth-2, Sodium Polyacrylate, Avena Saliva (Oat) Kernel Flour, Aloe Barbadensis Leaf Juice, Dipeptide Diaminobutyroyl Benzylamide Diacetate, Hyaluronic Acid, Aloe barbadensis Leaf Juice Powder, Tocopheryl Acetate, GLyceryl Stearate, Lauryl Alcohol, Myristyl Alcohol, Ethylhexylglycerin, Glyceryl Caprylate, Sodium Sulfite, Sodium Benzo ate, Potassium Sorbate, Citric Acid, Sodium Hydroxide, Disodium Edta, Phenoxyethanol.

MESO LIFT AND PROTECT

anti-age day cream with very high sun protection

Main treatment areas

- Face
- Body
- Hands

Meso Lift and Protect benefits

- Sun block with three effects
- Anti-ageing
- Protection against UVB and UVA rays
- Moisturising
- Soothing
- Wrinkle reduction
- ALOE VERA (calming effect)

Application

MESO LIFT AND PROTECT is a day cream with incredibly high sun protection and anti-age effect. It is ideal for sensitive skin, photodermatoses (sun allergy), light sensitivity caused by some medications, pigmentation spots, premature ageing and immunological changes.

Helps prevent dermatological ailments as a result of extreme exposure to UVB and UVA rays (SPF 50+), including sun allergy, spots, elastose, premature ageing and the consequences from the accumulative effects of radiation on the skin.

MESO PAIN REDUCE

desensitising the skin

MESO PAIN REDUCE

MESO PAIN REDUCE is a desensitisation agent for topical application based on Eugenol, specially derived from clove oil, which has antiseptic and antibacterial properties and, more importantly, anaesthetic properties.

MESO PAIN REDUCE is used as a topical anaesthetic before aesthetic treatments such as fillers, mesotherapy, laser, needling and other treatments that can be painful for the patient.

Its composition provides a local topical sensory shock with immediate effect, which works for around ten minutes, enough time to perform the treatment. The fast-acting effect means that it can be re-applied as needed, so the treatment can continue without disruption.

Side effects

None reported.

Active ingredients

Eugenol (specially extracted from clove oil), Camphor, Capsaicin.

Does not contain Lidocaine, Tetracaine, Adrenalin

MESO PAIN REDUCE

desensitising the skin

Main treatment areas

- Face
- Body

Application

- Anti-bacterial action
- Pain relieving/anaesthetising
- Through the special nozzle, apply one or more strips of approx. 1 cm (out over the treatment area) with a damp cloth. Massage gently. Do not rinse until after the treatment

Ingredients

QUA, ALCOHOL, GLYCERIN, EUGENOL, MENTHYL LACTATE, EUGENIA CARYOPHYLLUS BUD OIL, CARBOMER, TRIETHANOLAMINE

MESO NEEDLE ROLL 540

Micro needles with painless tip

Page 38-39

Needletech needles are realized under an accurate selection of the raw materials, keeping a particular attention during the packaging phase, in order to avoid eventual blunts of the needles.

An exclusive process of lubrication of the cannula of the needle allows a fluid and painless penetration into the skin.

The accurate sharpening of the needles minimizes the pain associated with the treatment.

The ultra thin diameters (0.3 and 0.23 mm) make this product excellent for mesotherapy, filler, botulinum, sclerosant and collagen treatments.

Box of 100pcs. In EO sterile single use blister.

Needletech

soft injections in Mesotherapy

Hypodermic needle for mesotherapy, filler and botulinum

Materials (stainless), keeping a particular attention during the packaging phase, in order to avoid eventual blunts of the needles.

An exclusive process of lubrication of the cannula of the needle allows a fluid and painless penetration into the skin..

Benefit silicone lubrication system for soft injection. An exclusive process of lubrication of the cannula of the needle allows a fluid and painless penetration into the skin.

Indications: mesotherapy, filler, botulinum injection.

It is suggested to use on the face, neck, hands an decollete: 31G size of 4mm.

On the body 31G or 30G size of 6 or 13mm.

It depends by the fat layer depth.

MESOpower[®] pen MS-5000

The latest skin therapy system!

MESOpower® pen Wired & Wireless 2 IN 1

Designed by mesoskinline in Denmark

- Needle length 0.25mm - 1.0mm
- Hits per minute 18000 RMP (up to 300 hits per second)
- Two lithium batteries (working time 6 hours when fully charged)

3D Innovation

MESOpower® pen is a specially developed professional mesotherapy handpiece with ergonomic design. It adjusts to fit multiple users, has real-time energy visualisation, and dual innovative technology with Smart Memory to meet your usage characteristics.

MESOpower® pen is perfect for a range of anti-age treatments, where serums/ mesococktails are applied with the help of gentle pressure movements and vibration. These include:

- Non-Invasive Mesotherapy
- Microneedling
- Microlifting

Wireless and Handy

This professional handpiece can also be used wirelessly, which is a noticeable advantage for all therapists worldwide. Transport your equipment in a stylish aluminium suitcase to any location you choose to perform the treatment - clinic, spa center, exhibition.

Do you perform many treatments per day? Don't worry - the battery can be charged while working. Once the battery is fully charged (Max. 2 hours), it could be used up to 6 hours continuously.

Safe and efficient

Regardless of the country, MESOpower® pen meets all regulations and requirements of needle length. Which means that it is safe to use on the face and body, where you can adjust the needle length from 0.25mm to 1,0mm according to the areas and purpose of the therapy.

The needle module is a perfect size and convenient in the treatment of narrow areas such as nose, eye-area or mouth-area.

In order to perform a comfortable and suitable treatment for any skintype, skin thickness or skin sensitivity, the vibration speed can be controlled in 6 levels. Its speed can be adjusted 100 - 300 hits/second.

Every needlemodule is sterile and individually packed. The needles in the module are covered with a removable plastic protection lid, so you avoid contamination risk while unpacking or when disposal of the needlemodule.

3D individual Drive

MESOpower® pen consists of 3 individual drive systems. which provide 3 times protection for core components, prevents any contamination of the equipment, prevents overheating the handpiece and keeps the perfect vibration level.

MESOpower® pen Technology

The MESOpower® pen is the very latest development from the group of various Microneedling pens worldwide.

The technology has evolved and replaces the use of needle rollers, which are cylindrical tools with small needles over the surface, and rolled on the skin to cause micro damage. There are other, similar products on the market, including the SkinPen or Dermapen, but all are based on the same concept - to perform controlled and even skin damage in order to stimulate skin renewal.

MESOpower® pen can even treat highly delicate areas, which are not possible to treat with a needle roller. When performing anti-age treatment with MESOpower® pen, hold it vertically against the skin, and adjust the depth and speed of needles on the device according to the area and skintype being treated.

MESOpower® pen MS-5000

the latest skin therapy system!

Specifications

- Electric MESOpower® pen with sterile single-use needlemodules
- Ergonomic Design and CE marked
- Needle length: From 0.25mm to 1.0mm
- Needle number: 3/11/24/36 needles per module
- Adapter: 5v,1000mA
- Speed: Max. 300 hits/second
- Includes two rechargeable lithium batteries, charger, pen holder and a portable aluminium case and 40 needle modules

Features

- Automatic speed regulation by single click (100 - 300 hits/second)
- Various needlemodules to stimulate skin: for treating fine lines, scars or large areas
- Vibration and mild microneedling creates perfect biostimulation of the skin, so it absorbs anti-age products immediately while treated and without major trauma.
- No downtime or bruising.
- More than 50% of stretch marks and acne scar improvement.
- No lidocaine anesthetic needed .
- Non-traumatic treatment makes it possible to perform each individual treatment just 10-14 days apart.

Warranty

- 1 years warranty.

Contents:

- 1 x MESOpower pen MP-5000
 - 2 x Rechargeable battery modules
 - 1 x Adapter for wired connection
 - 1 x Power Cable
 - 1 x Table Pen Holder for MESOpower Pen MP-5000
 - 1 x User Manual English
 - 10 x 3-Point Microneedling Needle Modules, Sterile
 - 10 x 11-Point Microneedling Needle Modules, Sterile
 - 10 x 36-Point Microneedling Needle Modules, Sterile
 - 10 x 24-Point Microlifting Plastic Modules, Sterile
- All packed in a stylish portable aluminium suitcase

Item no.: MST2000

MESO 3-Point Nano Module

(For MESOpower® pen) Item No: MST3001

Product description (1 box):

- 10 individually packed needle modules
- Sterile and single use only
- Ultrathin 0.18 mm
- Stainless titanium steel
- Sterilised with gamma rays and disposable
- Production date, Expiry date and LOT number on each needle
- Length of the needles is adjustable (0,25 mm-1 mm)

Via micro perforations in the skin, micro-needles insert the active anti-ageing ingredients (mesoskinline meso-cocktails) creating natural and almost painless cell renewal.

Cell renewal following a microneedling meso treatment leaves the skin tighter, improves its appearance and reduces wrinkles and minor imperfections.

A special Meso-microneedling 3- point module for precise treatment of deep lines and mimic wrinkles.

The innovative 3-Point - Microneedling Module is most advanced clinical microneedling unit on the market. With this state of the art module, you can stimulate, open the top layer of the skin. Use it together with suitable mesoskinline cocktails or similar products.

The module consists of three safe micro-needles, which stimulate the top layer of the skin (epidermis) in a mild and effective manner and also easy access to difficult areas due to its small size and tilting needle plate.

Double effect with MESO 3-Point Nano Module

The needles create invisible microscopic holes, which activate the skin's own natural healing process, producing more collagen and elastin. This naturally increases the skin's resilience.

Meanwhile, mesoskinline meso-cocktails flow into the skin during treatment and not after the treatment (unlike many other microneedling applications). The skin therefore absorbs all of the vitamins and amino acids from the products optimally, while renewing itself.

This improves the treatment result by approx. 30% and allows optimum absorption of the active ingredients in the right quantities and in the correct skin layers.

As the skin's barrier has been opened to the active anti-ageing ingredients, additional active ingredients from the MESO ANTI-AGE MASK used post-treatment are absorbed more effectively.

MESO 11-Point Micro Module

(For MESOpower® pen) Item No: MST3002

Product description (1 box):

- 10 individually packed needle modules
- Sterile and single use only
- Ultrathin 0.18 mm
- Stainless titanium steel
- Sterilised with gamma rays and disposable
- Production date, Expiry date and LOT number on each needle
- Length of the needles is adjustable (0,25 mm-1 mm)

The microneedles introduce the active anti-aging ingredients (mesoskinline mesococktails) through micro-perforations in the skin and ensure a natural and almost painless cell renewal.

For mimic wrinkles (for thin skin and sensitive areas). A classic round microneedling head for effective skin rejuvenation treatment.

The innovative MESO 11-Point Micro Module is one of the safest and most effective needle modules on the market. The advanced module allows you to stimulate, activate and open the upper layers of the skin. Thanks to the appropriate distance between the needles, the skin is treated correctly – without the risk of scarring.

Use this needle module on mimic wrinkles, stretch marks or acne scars with appropriate mesoskinline cocktails or similar products.

How to use:

Open the sterile safety package and remove the module. Do not touch the needles. Rotate the module into the Meso Power handpiece until secured, then remove the plastic safety cap from the needles.

Hold the „Turn on“ button on the handpiece for 2 seconds to activate it, and adjust the needle length by turning the handpiece. You can change the speed of the needles (push per second) with a single press of the „Turn on“ button.

You are now ready to start the treatment. Treat the skin with perpendicular movements and maintain a 90°-angle that ensures even needle depth and only causes minimal skin lesions.

Caution:

The following areas may not be treated with any type of needles: Open wounds, active acne, irritated skin, eczema, skin cancer, moles!

A safe plastic needle module designed to stimulate blood and lymph circulation and to increase product penetration into the skin by up to 97%.

With the MESO 24-Point Nontraumatic Module, you can effectively treat all areas of the skin with hyaluronic acid or mesoskinline meso-cocktails.

The innovative MESO 24-Point Nontraumatic Module consists of a plastic plate with 24 stimulation points (0,7 mm), which activate the skin's top layer (epidermis) in a mild and effective manner.

This is a special module for non-invasive mesotherapy, used for the face, body and scalp. The 24 stimulation points absorb the active mesoskinline meso-cocktails into the skin, leading to natural cell renewal.

When you run the MESO 24-Point Nontraumatic Module across the skin, you activate the skin's natural healing process. During the healing process, more collagen and elastin forms, making the skin more resilient. This makes the skin more receptive to anti-ageing ingredients added from the different mesoskinline meso-cocktails.

Treating the skin with the MESO 24-Point Nontraumatic Module doesn't require anaesthetic and doesn't cause visible healing or scab formation, hence why there is no risk of scarring or skin damage. Even sensitive skin will tolerate non-invasive Mesotherapy treatment with this module.

The 36-Point module is the largest in the range and suitable modules for treatment of deep wrinkles, stretch marks, surgical and acne scars.

The innovative MESO 36-Point Maxi Module is the most advanced clinical unit on the market. With this state-of-the-art module, you can stimulate, open the top layer of the skin. Use it together with suitable mesoskinline cocktails or similar products.

The module consists of thirty-six safe micro-needles, which stimulate the top layer of the skin (epidermis) in a mild and effective manner and easy access to difficult areas due to its small size.

Action of the Needle module:

Mesoskinline needle modules include modules of all kinds – from the tiny 3-Point Nano Module to the 36-Point Maxi Module.

The number of needles is relative to the problem area to be treated and delivers the most accurate and suitable treatment a therapist can perform.

Very fine Ø 0,18 mm titanium steel needles combining with anti-age meso-cocktail, feed the skin with necessary healthy ingredients and activate the collagen production due to micro-damage of the skin.

It can puncture more than 300,000 micro vessels on the epidermis within five minutes, creating an efficient nutrient delivery system between the epidermis and subcutaneous tissue.

MESO 24-Point Nontraumatic Module (For MESOpower® pen) Item No: MST3003

Product description (1 box):

- 10 individually packed needle modules
- Sterile and single use only
- Specially designed module with 24 x 0.7mm plastic pyramid-shaped stimulation points
- Sterilised with gamma rays and disposable
- Production date, Expiry date and LOT number on each needle
- Length of the needles is adjustable (0,25 mm-0,7 mm)

Cell renewal following non-invasive Mesotherapy treatment results in tighter skin, improvement in the skin's appearance, a reduction in wrinkles and minor imperfections, activation of the blood circulation around the hair follicles following Mesotherapy for hair loss.

MESO 36-Point Maxi Module (For MESOpower® pen) Item No: MST30034

Product description (1 box):

- 10 individually packed needle modules
- Sterile and single use only
- Ultrathin 0.18 mm
- Stainless titanium steel
- Sterilised with gamma rays and disposable
- Production date, Expiry date and LOT number on each needle
- Length of the needles is adjustable (0,25 mm-1 mm)

Via micro perforations in the skin, micro-needles insert the active anti-ageing ingredients (mesoskinline meso-cocktails) creating natural and almost painless cell renewal.

Cell renewal following a microneedling meso treatment leaves the skin tighter, improves its appearance and reduces wrinkles and minor imperfections.

NEEDLE ROLL 540

Micro needles with painless tip

NEEDLE ROLL 540

Micro needles
with painless tip

NEEDLE ROLL 540

Skin Needling is a regenerative dermatological technique. It is safe to perform on all skin colours and skin types.

There is no risk of subsequent inflamed hyper pigmentation. It is this safety function that separates Skin Needling from other invasive procedures for treating wrinkles and scars.

The technique is based on a simple principle: the normal healing reaction starts immediately when damage occurs to the tissue.

Blood components invade the injury area, and the blood plates make contact with the extra-cellular matrix.

This contact triggers the blood plates so that they release coagulation factors, essential growth factors and cytokines.

When the damaged area has been cleaned, the fibroblasts migrate to the injury area and produce and release new ECM.

The new collagen matrix is then cross-bound and organised in the final remodelling phase, which can last up to 12 months after the injury occurred.

Skin Needling with a skin roller produces hundreds of tiny injuries to the skin.

Each tiny injury triggers the normal healing process in the skin and through repeated treatment, new collagen builds up gradually and thus fills the deep scar and lines.

Generic regenerative face stimulation reduces the signs of photo-ageing and facial wrinkles (soft wrinkles).

Benefits

- With needles from 0.3 mm
- Generic regenerative facial stimulation
- Reduces wrinkles
- Reduces stretch marks
- Reduces abnormal pigmentation
- Reduces scars
- Reduces porosity

Contents: (1 box = 1 needle roll-handle
+ 2 needle roll recharges, 540 needles)

Item no.: Nr005

Sterile disposable heads consisting of 540 micro needles in stainless steel

- Needle Roll 540 head with its 540 micro needles allow you to cover a larger penetration area in a shorter time and can generate 1000 micro channels per square centimetres in ten minutes. This significantly increases the efficacy of the procedure.
- Stainless steel is scientifically proven to be the gold standard for tools that penetrate the skin.
- Needling Recharges have the same entry angle as subcutaneous needles, while Needling Roll 540 is diamond-shaped.
- The protective button gives you 100% protection against possible sources of infection. It is correct professional ethics to use disposable needle heads to reduce the risk of infections.

NEEDLE ROLLER 540 NEEDLE HEADS

Sterile needle heads for disposable use consisting of 540 micro needles in stainless steel.

With needles from 0.5 mm

- Generic regenerative facial stimulus
- Reduces the signs of medical imaging
- Reduces facial lines (soft wrinkles)

With needles from 1.0 mm

- Generic regenerative facial stimulus
- Reduces wrinkles
- Reduces stretchmarks
- Reduces abnormal pigmentation
- Reduces scars
- Reduces porosity and contrast adjustment

NEEDLE ROLLER 540 NEEDLE HEADS

540 micro needles allow you to cover a greater penetration area in less time and generate 1000 micro channels per square centimetre in ten minutes, significantly increasing the treatment's efficacy.

It has been scientifically proven that stainless steel is the gold standard for skin penetration tools.

The head in the NEEDLE ROLLER 540 NEEDLE HEADS Recharge is made of titanium with a new type of 200 micro needles, which means less pain and discomfort during treatment compared with standard derma rollers with round needles.

Single needle heads reduce the risk of infections
